Professional Summary

Aspiring Java Full Stack Developer with strong knowledge in Java, frontend technologies, and database management. Passionate about building responsive web applications and learning modern software development practices. Developing real-world projects including secure communication systems, blockchain-based applications, and AI-powered solutions. Skilled in Java, Object-Oriented Programming, and web technologies with a focus on building efficient and scalable applications. Passionate about solving real-world problems through technology and seeking an opportunity to contribute technical skills and grow as a software engineer.

Technical Skills

- **Programming:** Core Java, Advanced Java
- **Web Technologies:** HTML5, CSS3, JavaScript, ReactJS
- **Database:** SQL, MySQL
- **Soft Skills:** Communication, Problem Solving, Creativity, Leadership

Projects

Quantum Secure Chat App Using Simulated BB84 Protocol

Developed a real-time secure chat application using simulated BB84 quantum key distribution. Implemented secure authentication, encrypted communication, and key exchange mechanisms. Enhanced privacy and communication security against future quantum computing threats.

Secure Image Retrieval Using Blockchain and IPFS

Built a decentralized image storage and retrieval system using Blockchain and IPFS. Utilized Ethereum smart contracts to store image metadata and ownership records. Improved security, integrity, and storage efficiency for distributed applications.

Education

Bachelor of Technology in Computer Science Engineering

Jyothishmathi Institute of Technology & Science

Apr 2026

GPA: 7.48

Diploma in Mining Engineering

Abdul Kalam Institute of Technology and Sciences

Dec 2022

GPA: 5.82

Secondary School Certificate

St. Anthony's High School (EM), Karimnagar

Mar 2018

GPA: 8.0

Certifications

- Python Training Certification – CodeTantra

Dec 2025

Languages

Hindi (Native) | English (Professional) | Telugu (Professional)

Extracurricular Activities

Fest Organizer

Coordinated cultural and technical events, managed teams, schedules, and event logistics. Collaborated with stakeholders to ensure successful execution of events.
